

An Esoteric Perspective on the Present Global Financial Crisis

Today we find ourselves in the midst of a global economic and financial crisis, the likes of which we have not seen since the Great Depression. From an esoteric perspective, this crisis is seen as part of greater cosmic cycles in which the earth is an integral part. Humankind is evolving into a New Age and as this evolution progresses, all that does not serve mankind must be cleansed from the earth. This is what is happening today and we are on a journey into the future that will bid the past goodbye forever.

In 2001 Dr. Michael Mau, the Amanuensis, author of the books *The Sanctus Germanus Prophecies; Volumes I and II* and founder of the Sanctus Germanus Foundation predicted this crisis and projected other major changes that would occur on the earth in the next fifty years. The changes will be tumultuous.

Dr. Mau will be giving a lecture entitled “An Esoteric Perspective on the Present Global Financial Crisis” at the Hampton Inn conference center in Carol Stream, IL on Saturday, September 12th, 2009 at 5:30 PM.

At this lecture and discussion, learn why you *chose* to be here during this turmoil. Find out how you can establish better contact with your soul in order to carry out the specific plan you developed before this incarnation. Learn to navigate through this turmoil unscathed. Most importantly, find out how you fit into a grand Divine Plan that brings together other lightbearers on earth to help build the New Age.

Dr. Mau is one of several mediums for the Great Brotherhood of Light. He has been given the privilege of bringing forth the ideas of the Masters to a very skeptical humanity in search of answers during this time of worldwide upheaval. He is also the principal

practitioner of the Telepathic Healing method developed under the guidance of the Brotherhood.

Before his mediumship, Dr. Mau pursued a successful career in the Foreign Service and worked as an international development and small business consultant to the United Nations, the US Agency for International Development and the World Bank. He then established several small businesses, including an international trading concern in Asia. Dr. Mau holds a Bachelors degree from UCLA and a doctorate in International Relations from the University of Pennsylvania where he was named a Fulbright Scholar. He has lived and worked in Europe, Africa, Asia and North America and speaks four languages.
